Gearing up the future

PAE 01

Welcome To Our Company

Our team is thoughtfully assembled, bringing together a diverse array of complementary skills across several critical sectors: Solution Architecture, Business Analysis, Security, Project Management, and Technical Development. This broad spectrum of expertise empowers us to navigate and address any challenges that may arise during the project lifecycle with confidence and proficiency.

In addition to our varied skill set, we prioritize open communication and seamless collaboration among team members. This dynamic teamwork not only strengthens our problem-solving capabilities but also enhances our ability to deliver exceptional, high-quality solutions that are precisely aligned with our clients' evolving needs

We Provide The Best Solution

Custom Software Solutions

We solve your business problems using technology, not just deliver software. We take end-to-end responsibilities for your project, our service covers the whole life cycle: ideation , design, delivery and support.

Consulting Services

A reliable partner with a global network of experts and certified consultants on every region, we know your surroundings and speak the local language. We're objective problem-solvers who want to give you clear, successful strategies for your organization.

Why Choose Our Company

Entrant DPS is an established Digital Payments Solution consultancy company providing custom consultation services in three key areas:

- Cultivating Digital Transformation.
- Digital Payments Solutions Enablement.
- Payments Acceptance Solutions.

Advisory

Professional set of advisory activities includes providing expert guidance and recommendations to clients in digital payments industries.

Done for you

Professional services including build or manage and operate initiative for the client

Catalyze & Empower

We believe that every organization has the potential to excel. Our consultancy services are designed to unlock that potential by providing tailored solutions and insights that drive growth and innovation.

Company Vision

Our vision is to be recognized as key consultancy provider for digital payments solutions across major MEA economies.

We move towards becoming a key player in innovation and transformation of Financial Institutions, Fintechs and SME businesses.

Mission

We are in a mission to uphold your digital transformation journey in payments solutions.
